The last straw: this is the story of an audacious Aurovilian climbing the staircase of power in Auroville at high speed...

As it was disclosed on 25/4/2019, P. SATHYAMURTHY aka as Kalyamurthy and better known as Kalya from Aspiration. This man is running multifaceted companies, a group of a private companies, with the exception of one which is under an Auroville umbrella called "Progress Landscape (and construction)". His wife, called Aurosathyakala, daughter of V. Rajamani, sister of R. Selvam and R. Sundar is also part of this setup...

Recently, Kalya had a dream: becoming member of the FAMC, an upstate body of the Auroville Foundation looking after the management of the funds and assets of Auroville... Why not?

He had been able in the last few years to grasp a sizable and valuable heritage asset of Auroville which was build under Roger Anger guidance as the "Sanskrit School" in the seventies. He managed to get it from SAIIER. Kalya was able, thanks to his connections and a high dose of influence-peddling, to manage to get this building free of cost handed over to him on a silver platter...

This was a school and now it has become his business office.

This building was not an asset of SAIIER. It is a property of Auroville since long before the Government of India came in the picture. It should have been protected from grabbing by any business unit for their use. It has now became an office for "Progress Landscape", a shadow Auroville unit declaring low incomes from the others managed family private commercial enterprises working in tandem with "Auroform", a unit of the Sri Aurobindo Ashram channeling unaccounted funds made from questionable businesses for high-class rich people's villas and farmhouses in the whole south India area.

The funds running from one to the others is certainly many crores of Rupees every year, some of which end up in private pockets... Eventually, after some times, the former office of New Creation was transferred to a private house occupant (below)...

God and some members of some other groups and some of the FAMC knew how much funds had changed hands. It looks like a large part of the money was given back to Kalya to refurbish his new business office in Sanskrit School... All that seems to be normal in this world of today... One can make money, invest it and get it back... When anyone wants a house in Auroville, one has to show his/her bank book, but for some, none of this is needed... Well that could be acceptable for Kalya **IF** he was a valuable contributor to Auroville economy... However, this is not the case.

Kalya and his wife have purchased private properties around Auroville, and possibly farther away like in Kodaikanal... But for lands around Auroville, the Government of Tamil Nadu gives sufficient proof so that his deals can be exposed here:

A few years back a well-known Tamil Nadu politician has purchased a piece of land in the Green Belt near Dana... C.V. Shanmugam, minister of law and justice...

One of Kalya trusted man. Krishnamurthy from Edayanchavadi is in charge of this private development in the Green Belt being made without NOC from the Auroville Foundation by Kalya...

You will notice the design of the two projects with the round window type structure in the wall and the intensive use of granite...

It remains to be seen how this new project is being accounted for the account books of Progress Landscape? This warrant a mid term internal audit...

Now, questions arise:

1 – Is Kalya, who openly promotes and sustains right to purchase private properties, qualified to become a member of the FAMC?

2 – Is Kalya who run private businesses qualified to be member of the FAMC?

3 – Is Kalya who is engaged doubtful financial transaction qualified?

4 – Is Kalya, who was a benamidar for lands paid by Anand of Auroform. He goes by as someone who has given "his" lands to Auroville, which is not true. The fact is that Kalya was caught by authorities for illegal granite business on private land; he transferred that land to the Foundation to avoid that. Now knowing that he is qualified?

5 – Kalya was instrumental in questionable transfers of huge sum of money (about Rs 2 crores) to Sunship building. What was the origin of these funds is questionable. Having been instrumental in this transfer, is he qualified?

6 – What are the sources of funds for his activities and his private properties?

7 – How this project and others are being accounted in his balance sheet?

This is for you to decide, as far as I am concerned, he is not. Now any one with doubtful and questionable character can become a candidate for the apex groups of the Foundation because there is no way to test abilities and because nomination is often made by people who are not willing to look beyond feelings and do not care much about ethics and legalities.

Paul Vincent 27/11/2019
